TABLES

• IN FOCUS

Table 1.1: Percentage of public sector workers in total employment and employee jobs in 2013 based on various sources	44	Table 2.4.2: Probability of overqualification among people moving to a new job in the private sector by the sector of origin	99	Table 4.3.3: Movement between sectors, per annum	205
Table 1.2: Distribution of public sector employees by sector and level in the first quarter of 2013, in sectors dominated by public provision	45	Table 2.5.1: Factors influencing selection between the public and private sector among employees, 2006 ..	106	Table 4.4.1: Trends showing numbers of individuals leaving the National Police Force	208
Table 1.3: The range of pay gaps between the public and private sectors in selected countries between 1993 and 2000	48	Table 2.5.2: Factors influencing voluntary work in the adult population	108	Table 4.4.2: Employment categories listed in the International Standard Classification of Occupations (ISCO), with the number of persons in the given occupation, as of the dates on which they were first reported	209
Table 2.1.1: Covariate descriptive statistics, 2002 and 2008	62	Table 2.5.3: Attitudes towards income redistribution, 2002 and 2006	109	Table 4.4.3: Breakdown of occupations at the time the person first appeared in the database and at the time of retirement, and the age of retirement, 2002–2008	211
Table B2.1.1: The ratio of women and mean pay by occupation and sector, 2002–2008	67	Table 2.5.4: Factors influencing attitude towards income redistribution in the adult population	110	Table 4.4.4: Occupations of retired law enforcement workers	212
Table B2.1.2: Unexplained pay differentials between the two sectors, percentiles	68	Table 3.2.1: Extreme values of mandatory pay for employees with the same education level in 1994	125	Table 4.4.5: Monthly earnings of retirees from public servant status prior to retirement	212
Table B2.1.3: Odds of management occupations, probit estimations, 2002–2008	69	Table 3.2.2: Comparative earnings in the public sector, 1998	125	Table 4.4.6: Mean wages before and after retirement	214
Table 2.2.1: Composition of the workforce in the public and private sectors	72	Table 3.2.3: Peak interest reconciliation forums in the public services	126	• LABOUR MARKET POLICY	
Table 2.2.2: The yearly effect of public sector size on corporate wages	75	Table 3.2.4: Remuneration set as mandatory under the public service employee pay scale for the different wage categories and payment levels	132	Table 1: The amount of subsidies paid to unemployed people and working age unemployed people on 1 January 2014	231
Table 2.2.3: The effect of occupation on wage spillovers	76	Table 3.2.5: Internal differentiation of the public service pay scales and the extreme values compared to the 2013 minimum wage	134	Table 2: Amounts of minimum wages on 1 January 2014	238
Table 2.2.4: The effect of public sector vacancies on wage spillovers	76	Table B3.2.1: Number of valid single-employer collective agreements in the business sector and breakdown by the owner of the business	136	Table 3: Income and expenditure related to employment policy in the central state budget 2011–2014 ..	243
Table 2.3.1: Job moves from the private to the public sector – transfer rates and year fixed effects, 1997–2007	84	Table 4.1.1: Average monthly earnings of current and former teachers ...	184	• STATISTICAL DATA	
Table 2.3.2: Job mobility from the public to the private sector, 1997–2007	85	Table 4.1.2: Binary choice Cox proportional hazard models (leaving teaching profession or not) split to episodes	185	Table 1.1: Basic economic indicators	249
Table 2.3.3: Wage premium/disadvantage of graduate job movers from the private to the public sector compared to stayers in the private sector, controlled for gender, age and number of years worked	86	Table 4.1.3: The effect of wage increase – Competing risk models. Risks: Working in a non-teaching job/ Inactive or unemployed	186	Table 2.1: Population	251
Table 2.3.4: The effect of public sector pay level on the wages of people moving from the private to the public sector, 1998–2007	87	Table 4.1.4: Distribution of former teachers by sector of employment after attrition	188	Table 2.2: Population by age groups, in thousands	251
Table 2.4.1: Re-employment intensity of the non-employed leaving the public sector (compared to the private sector) based on LFS and CANPI data	97	Table 4.1.5: Distribution of former teachers who left education sector by occupation group	188	Table 2.3: Male population by age groups, in thousands	253
		Table 4.3.1: Breakdown of people quitting public health care service in the years of the survey by their ensuing labour market status	202	Table 2.4: Female population by age groups, in thousands	253
		Table 4.3.2: Social transfers received by the people who left the labour market	203	Table 3.1: Labour force participation of the population over 14 years, in thousands	254

of the population over 14 years, per cent	257	Table 5.3: Composition of the unemployed by level of education, males, per cent	273	Table 5.21: The distribution of those entering training programmes by age groups and educational level	288
Table 3.5: Labour force participation of the population over 14 years, males, per cent	258	Table 5.4: Unemployment rate by level of education, females, per cent ...	274	Table 6.1: Nominal and real earnings	289
Table 3.6: Labour force participation of the population over 14 years, females, per cent	259	Table 5.5: Composition of the unemployed by level of education, females, per cent	274	Table 6.2.a: Gross earnings ratios in the economy, HUF/person/month	290
Table 3.7: Population aged 15–64 by labour market status (self-categorised), in thousands	260	Table 5.6: The number of unemployed by duration of job search, in thousands	276	Table 6.2.b: Gross earnings ratios in the economy, per cent	291
Table 3.8: Population aged 15–64 by labour market status (self-categorised), per cent	261	Table 5.7: Registered unemployed and LFS unemployment	278	Table 6.3: Regression-adjusted earnings differentials	292
Table 4.1: Employment	262	Table 5.8: Composition of the registered unemployed by educational attainment, yearly averages, per cent	279	Table 6.4: Percentage of low paid workers by gender, age groups, level of education and industries	293
Table 4.2: Employment by gender ..	263	Table 5.9: The distribution of registered unemployed school-leavers by educational attainment, yearly averages, per cent	279	Table 7.1: School-leavers by level of education, full-time education ..	296
Table 4.3: Composition of the employed by age groups, males, per cent	264	Table 5.10: Registered unemployed by economic activity as observed in the LFS, per cent	280	Table 7.2: Pupils/students entering the school system by level of education, full-time education	297
Table 4.4: Composition of the employed by age groups, females, per cent	264	Table 5.11: Monthly entrants to the unemployment register, monthly averages, in thousands	280	Table 7.3: The number of full time pupils/students by level of education	298
Table 4.5: Composition of the employed by level of education, males, per cent	265	Table 5.12: Selected time series of registered unemployment, monthly averages, in thousands and per cent	281	Table 7.4: The number of part-time pupils/students by level of education	298
Table 4.6: Composition of the employed by level of education, females, per cent	265	Table 5.13: The number of registered unemployed who became employed on subsidised and non-subsidised employment	282	Table 7.5: Number of applicants for full-time high school courses	299
Table 4.7: Employed by employment status, in thousands	266	Table 5.14: Benefit recipients and participation in active labour market programmes	283	Table 8.1: The number of vacancies reported to the local offices of the NFSZ	300
Table 4.8: Composition of the employed persons by employment status, per cent	266	Table 5.15: The ratio of those who are employed among the former participants of ALMPs, per cent	284	Table 8.2: Firms intending to increase/decrease their staff, per cent	301
Table 4.9: Composition of employed persons by sector, by gender, per cent	267	Table 5.16: Distribution of registered unemployed, unemployment benefit recipients and unemployment assistance recipients by educational attainment	285	Table 9.1: Regional inequalities: Employment rate	302
Table 4.10: Employed in their present job for 0–6 months, per cent	267	Table 5.17: Outflow from the Register of Beneficiaries	286	Table 9.2: Regional inequalities: LFS-based unemployment rate	303
Table 4.11: Distribution of employees in the competitive sector by firm size, per cent	268	Table 5.18: The distribution of the total number of labour market training participants	286	Table 9.3: Regional differences: The share of registered unemployed relative to the economically active population, per cent	304
Table 4.12: Employees of the competitive sector by the share of foreign ownership, per cent	268	Table 5.19: Employment ratio of participants ALMPs by gender, age groups and educational attainment for the programmes finished in 2013, per cent	287	Table 9.4: Annual average registered unemployment rate by counties, per cent	305
Table 4.13: Employment rate of population aged 15–74 by age group, males, per cent	269	Table 5.20: Distribution of the average annual number of those with no employment status who participate in training categorised by the type of training, percentage	287	Table 9.5: Regional inequalities: Gross monthly earnings	306
Table 4.14: Employment rate of population aged 15–74 by age group, females, per cent	269			Table 9.6: Regression-adjusted earnings differentials	306
Table 4.15: Employment rate of population aged 15–64 by level of education, males, per cent	270			Table 9.7: Regional inequalities: Gross domestic product	309
Table 4.16: Employment rate of population aged 15–64 by level of education, females, per cent	271			Table 9.8: Commuting	309
Table 5.1: Unemployment rate by gender and share of long term unemployed, per cent	272			Table 10.1: Strikes	310
Table 5.2: Unemployment rate by level of education, males, per cent	273			Table 10.2: National agreements on wage increase recommendations ..	310

Table 10.7: The number of firm wage agreements, the number of affected firms, and the number of employees covered	311	work booklet	322	and flows to/from non-subsidised employment and unemployment, 2008–2013, population aged 15–64 years	31
Table 10.8: The number of multi-employer wage agreements, the number of affected firms, and the number of covered companies and employees	312	Table 12.3: The monthly amount of the minimum wage, the guaranteed wage minimum, and the minimum pension, in thousands of current-year HUF	323	Figure 18: Changes in inactivity and flows to/from subsidised employment and unemployment, 2008–2013, population aged 15–64 years	31
Table 10.9: The share of employees covered by collective agreements, per cent	312	Table 12.4: The tax burden on work as a ratio of tax revenue and earnings	324	Figure 19: Rate of different out-of-work groups (partly overlapping) within the 15–64-year old population	32
Table 10.10: Single employer collective agreements in the national economy	313	Table 13.1: Employment and unemployment rate of population aged 15–64 by gender in the EU, 2013	325	Figure 20: Previous work of the unemployed, by sector	33
Table 10.11: Multi-employer collective agreements in the business sector	314	Table 13.2: Employment composition of the countries in the EU, 2013 ..	326	Figure 21: Changes in reasons for unemployment	33
Table 11.1: Family benefits	315	FIGURES		• IN FOCUS	
Table 11.2: Unemployment benefits and average earnings	315	• HUNGARIAN LABOUR MARKET		Figure 1.1: Employment in the public sector, 1986–2013	46
Table 11.3.a: Number of those receiving pension, and the mean sum of the provisions they received in January of the given year	316	Figure 1: GDP growth in the region ..	19	Figure 1.2: Regression-adjusted pay advantage/disadvantage of the public sector 1986–2013	47
Table 11.3.b: Number of those receiving pension, and the mean sum of the provisions they received in January of the given year, from 2011	316	Figure 2: Employment rates in the Visegrád countries, quarterly, population aged 15–64 years	20	Figure 1.3: Changes in the pay of public servants in comparison to the national average by pay percentiles, between different time periods ...	50
Table 11.4.a: Number of those receiving social annuities for people with damaged health, and the mean sum of the provisions they received after the increase, in January of the given year	317	Figure 3: Main labour market indicators	21	Figure 1.4: Pay of public servants compared to the national average, 1994, 2013	51
Table 11.4.b: Number of those receiving social annuities for people with damaged health, and the mean sum of the provisions they received after the increase, in January of the given year, from 2012	317	Figure 4: Number of people in employment, population aged 15–64 years	21	Figure 1.5: Graduate pay in the public sector compared to private sector employees of similar age and education, 2013	52
Table 11.5: The median age for retirement and the number of pensioners	318	Figure 5: Balance of Hungarian nationals working abroad and foreign nationals working in Hungary, population aged 15–64 years, 2008–2013	22	Figure 1.6: Pay in graduate jobs in selected cohorts, 1998–2008	53
